

CITY OF LE SUEUR  
REQUEST FOR COUNCIL ACTION

TO: Mayor and City Council

FROM: Jasper Kruggel, City Administrator

SUBJECT: Le Sueur Airport East Taxilane Design Direction

DATE: For the City Council Meeting of Monday, February 11, 2018

---

**PURPOSE/ACTION REQUESTED**

Provide direction to city staff on how to proceed with the Le Sueur Municipal Airport Taxilane project design.

**SUMMARY**

On January 14, 2019, a proposal was presented to City Council for engineering services related to the Le Sueur Municipal Airport Taxilane Extension Project. During that agenda item, questions rose regarding the possibility of adding water and sewer to the project. Adding water and sewer to the project is a reimbursable expense through the FAA Entitlement Program.

Staff would like to continue to move this project along to meet bidding timelines and is seeking direction from City Council on how to proceed and if to include water and sewer in the design of the project. If City Council directs staff to include water and sewer in this project, staff will work with engineering staff to develop a proposal from engineering to facilitate the project to include sewer and water. If sewer and water is not desired, at the February 25<sup>th</sup> City Council meeting, staff will present for consideration the proposal from Bolton and Menk to facilitate the bidding process and perform site inspections for the project as it is currently designed.

**PURPOSE/ACTION REQUESTED**

Staff is requesting direction from City Council on how to proceed with this project regarding the addition of water and sewer. If directed to add water and sewer to the project, staff will work with engineering to add those items, and provide a cost estimate. If engineering services are secured and the project is directed to go out to bid, City Council will have the opportunity to either accept or reject the bids for the project.
