

CITY OF LE SUEUR  
REQUEST FOR COUNCIL ACTION

TO: Mayor and City Council

FROM: Jasper Kruggel, City Administrator

SUBJECT: Resolutions for Distributed Generation, Net Metering, Rules Governing the Interconnection of Cogeneration and Small Power Production Facilities, and the Annual Cogeneration and Small Power Production Facilities Tariff

DATE: For the City Council Meeting of Monday, February 25, 2019

---

**PURPOSE/ACTION REQUESTED**

Consider the passage of two resolutions providing required documentation related to the distributed generation, net metering, rules governing the interconnection of cogeneration and small power production facilities, and the annual cogeneration and small power production facilities tariff.

**SUMMARY**

The City of Le Sueur is a partner in the Minnesota Municipal Power Agency. Being part of that agency allows for the City of Le Sueur to purchase power used in our City. It has been requested that the Le Sueur City Council consider the two resolutions and subsequent guidance documents to assist in positioning the agency to better approach legislators for permit acquisition.

It is important that MMPA's members take individual action on this at the local governing body, as doing so should preserve the right of the local governing body to retain control over distributed generation and cogeneration tariffs.

**PURPOSE/ACTION REQUESTED**

Staff recommends adopting the two resolutions:

1. City of Le Sueur's Policy Regarding Distributed Generation, Net Metering, and Rules Governing the Interconnection of Cogeneration and Small Power Production Facilities
2. City of Le Sueur Resolution Approving Cogeneration and Small Power Production Tariff
