By participating in our We Save Custom Rebate program, you can keep costs down and earn rebates when you purchase and install energy efficient equipment or take other measures to reduce your energy consumption.

What rebates can I earn?

Custom Rebates are determined on a case-by-case basis and are based upon energy savings.

What are examples of projects that could qualify for Custom Rebates?

Some examples of projects that could qualify for Custom Rebates are:

- ✓ LED Lighting
- ✓ Insulated dock doors
- ✓ Efficient motors >200 hp
- ✓ Air compressors
- ✓ Refrigeration technologies
- ✓ Insulated freezer doors
- ✓ Ammonia compressors
- ✓ Variable speed drives >200 hp
- ✓ Rooftop AC units
- ✓ Building envelope improvements

How do I learn more about whether my project qualifies for a Custom Rebate?

To find out if your project qualifies for an MMPA Custom Rebate, please contact your local electric utility.

How Do I Qualify?

- The Custom Rebate Program is available to participating MMPA member cities' business customers in Minnesota.
- Your local municipal electric utility reserves the right to inspect installations before issuing rebates and to perform a random verification audit of your project. If the application is found to not comply with rules and qualifications, any rebate amount may be adjusted.
- Customer must apply for rebate within one year of purchasing equipment. The purchase date is the date shown on the customer's invoice.
- Estimated annual kW and kWh savings must be entered in the table on the rebate form.
- Invoice must accompany rebate application.
- Rebate requests are processed on a "first-come first-serve" basis. Annual rebate funds are limited. Rebate program qualifications and amounts are subject to change at any time. The customer is responsible for checking with your local municipal electric utility to determine whether the program is still in effect.
